

DAULTON COIN WHITEPAPER

The Project

Welcome to the Future of Crypto and Memecoins

Say hello to **\$DAULTON**, the memecoin that's turning heads and changing lives. Be the legend everyone talks about—the one who transformed dollars into extraordinary fortune while making a meaningful difference for animals in need. Missed out on PEPE, WIF, or SHIB? Don't let \$DAULTON slip through your fingers!

Our mission is bold yet simple: to increase the value of \$DAULTON for our community while championing animal welfare. We're here to prove that memecoins can do more than entertain—they can create generational wealth and bring tremendous good to the world. **\$DAULTON isn't just a token; it's a movement, a community, and a cause with purpose.**

And we're building something special: the **DAULTON TRADING FRENZY APP (DTF)**. Imagine battling it out in a digital coliseum, where trading becomes a thrilling game, and \$DAULTON is the currency of champions. Massive prizes, exclusive NFTs, and a wild ride await! With \$DAULTON as the lifeblood of DTF, we've designed an ecosystem to keep the value of \$DAULTON rising.

What is \$DAULTON?

\$DAULTON is a revolutionary dog-inspired memecoin that operates on the Solana and Ethereum blockchains. It is designed to bring joy and happiness to the world while making a significant positive impact on animal welfare. Unlike many other memecoins that lack a purposeful mission, **\$DAULTON** is committed to supporting charitable causes, especially those focused on the protection and well-being of animals. The project draws inspiration from a sweet and lovable Pomeranian named Daulton, whose joyous spirit is the cornerstone of this initiative.

Vision and Mission

At its core, **\$DAULTON** is about creating a world where crypto builds bridges between wealth and compassion.

Vision:

To establish a **trustworthy, ethical, and community-driven** platform in the cryptocurrency space that makes a powerful, positive impact on global animal welfare.

Mission:

To fund charitable initiatives that rescue, protect, and save dogs, while promoting adoption and raising awareness about animal welfare. Every step of the way, **\$DAULTON** creates tangible value for its community by seamlessly combining purpose with profit.

THE PROBLEM

Challenges in Animal Welfare

Globally, millions of dogs suffer from neglect, abuse, and abandonment. Shelters are often overcrowded and underfunded, leading to inadequate care for these animals. Moreover, there is a significant gap in public awareness about the importance of adoption and animal welfare. The need for sustainable funding and global support for these causes is more critical than ever.

The Saturation of Meme-Coins

The cryptocurrency market is filled with memecoins that often lack any real-world utility or mission. These coins are typically driven by speculative trading, leading to high volatility and short-lived interest. There is a growing need for memecoins that not only entertain but also contribute positively to society.

\$DAULTON differentiates itself by combining the fun and excitement of meme culture with a meaningful mission to support animal welfare.

The Solution

\$DAULTON's Purpose and Goals

Memecoins offer a unique opportunity to blend philanthropy with financial gain. By investing in and supporting memecoins linked to animal welfare organizations, community members can contribute to crucial animal protection efforts while also participating in a potentially lucrative investment. This dual-benefit model not only helps sustain and expand vital animal care initiatives but also allows supporters to profit as the coin's value increases, creating a win-win scenario where charitable giving and financial success go hand in hand.

By supporting the \$DAULTON Community, you become a vital part of a dynamic model that empowers individuals to advance a noble cause and achieve personal prosperity, illustrating how modern financial tools can drive meaningful change and enrich lives in equal measure.

Charitable Contributions

A significant percentage of \$DAULTON tokens are allocated to a charity wallet, which is used exclusively to fund initiatives that protect and save animals. These contributions help build no-kill shelters, sponsor adoption events, and provide much-needed veterinary care to animals in need.

Enter The DAULTON Trading Frenzy App (DTF)

We're building something extraordinary. Picture yourself in a virtual coliseum, where trading becomes an adrenaline-fueled game and **\$DAULTON** is the currency of champions. Compete for massive prizes,

exclusive NFTs, and the ultimate bragging rights. With \$DAULTON powering the DTF ecosystem, we've designed a dynamic platform that continuously drives value for our token.

How We're Making \$DAULTON's Value Skyrocket

1. Strategic Value Growth Through Scarcity and Demand

- **Burn, Baby, Burn:** To make \$DAULTON tokens scarcer, we'll burn a portion of every transaction, entry fee, and purchase in our DTF App. Every token burned reduces supply, making every \$DAULTON you hold more precious.
- **VIP-Only Access for Early Holders:** As the community grows, early adopters will gain exclusive access to special tournaments, high-stakes battles, and ultra-rare NFTs—all designed to create demand for \$DAULTON and reward loyal holders.
- **Community Burn Events:** We'll host regular, community-driven token burns. Think countdowns, live announcements, and massive social media hype. These events create buzz, drive demand, and add a little sizzle to every \$DAULTON you own.
- **Burn Rewards for Top Performers:** Our top traders and loyal holders get rewarded in \$DAULTON and get exclusive access to burn events. Imagine VIP-only burns where your token supply directly benefits from value-boosting burns.

2. DAULTON Trading Frenzy (DTF) App: The Coliseum of Crypto Chaos

The DAULTON Trading Frenzy App (DTF)—a battlefield where memecoin fans and crypto warriors clash in epic trading tournaments. Imagine a high-octane, strategy-fueled app that's not just about trading but about winning, showing off, and becoming a legend.

DTF was built to make sure \$DAULTON stays in high demand. The more people play, the more the token's value grows. Features include:

- **Arena Battles & Team Showdowns:** Whether it's a solo duel or a team-based throwdown, DTF is where the action happens. From small buy-ins to grand-stake events, the stakes are always high.
- **NFT-Based Power-Ups:** Equip yourself with NFT-based power-ups that give you an edge in battles. Extra leverage, fee reductions, and other game-changing perks are all available exclusively in \$DAULTON.
- **Leaderboards & Social Glory:** Think you're a top dog? Prove it. Our leaderboards are public, and your victories are celebrated. Climbing the ranks doesn't just bring bragging rights but also exclusive rewards and social recognition. Win big, and you might even find yourself sponsored by the \$DAULTON brand!

3. Bringing Millions into the Fold with Viral Growth

- **Partnering with Influencers & Memecoin Celebrities:** We're tapping into influencers who understand the language of memes and crypto. By partnering with big names in the crypto space, we'll put \$DAULTON in front of millions of potential users, turning casual followers into loyal holders.
- **Meme-Worthy Campaigns & Viral Content:** \$DAULTON isn't just a coin; it's a story. We'll run meme-worthy campaigns and contests that explode across social media. Imagine viral challenges, share-to-win promos, and FOMO-inducing giveaways.

- Referral Bonuses: Every new user you bring into the DAULTON ecosystem earns both of you \$DAULTON bonuses. We're building a viral effect that keeps the community growing.

4. High-Yield Staking with a Twist: 300% APY for Champions

- Staking for All, but Rewards for Champions: We're not just talking regular staking - for top tournament winners in the DTF, we're bringing out the big guns: up to 300% APY monthly staking rewards. If you win in the arena, you don't just earn bragging rights and win a huge pot - you earn staking returns that turn heads.
- Tiered Staking Pools: Not a tournament champion? No problem. Regular staking pools with still-attractive APYs are available, with boosted rates for those who commit longer. It's simple: stake, hold, and watch your rewards stack up.
- Compounding Growth: For those who love the math of money, we'll enable automatic compounding options so that your rewards can stack on top of each other. Imagine watching your \$DAULTON grow at astronomical rates.

5. Unique NFT Drops for Fun and Value Growth

- Limited-Edition Collectibles: From “Legendary Daulton” NFTs to “Arena King” badges, each NFT drop is tied to in-game advantages and staking boosts. These collectibles aren't just for fun—they're tools to enhance your earnings in the DTF app.
- Seasonal & Holiday-Themed NFTs: Keep things fresh with seasonal NFT drops that grant special powers and perks for a limited time. These drops give users a reason to keep coming back, and as these NFTs gain popularity, the demand for \$DAULTON surges.
- NFT Resale Potential: Our NFTs will be tradable, giving you the option to sell them for profit on secondary markets. As the community grows, these rare NFTs could become highly sought after, creating value for the holders who got in early.

6. Real-Time Impact: Tracking How Your Tokens Help Animals

- Charity Wallet Transparency: We don't just say we're helping animals - we show it. Our charity wallet is publicly tracked, and you can see where every dollar goes, whether it's no-kill shelters, adoption services, or animal medical care.
- Community Votes on Charity Allocations: \$DAULTON holders get to vote on which causes receive funding each month. Be part of a movement that's changing lives for animals.
- Monthly Impact Reports: Regular updates on our animal welfare initiatives, complete with stories, photos, and stats, so you see the tangible impact of your support.

7. Public Leaderboards, Fame & Fun

Claim Your Spot in the Hall of Memes: The DTF leaderboard isn't just a ranking; it's a badge of honor. The best traders earn exclusive badges, \$DAULTON bonuses, and social media shoutouts that make you a known name in the memecoin universe.

Win Big, Win Often: Our prize pots aren't just a side attraction—they're massive. Win a tournament, and you take home a hefty stack of \$DAULTON and \$SOL. Top players can rake in substantial profits, boosting demand and increasing \$DAULTON's market value.

8. Community Power & Exclusive Access for Long-Term Holders

- VIP Tournaments for Early Adopters: Early supporters get access to high-stakes tournaments with exclusive rewards and \$DAULTON bonuses. Join us now, and you'll enjoy perks that future holders can only dream of.
- Loyalty Bonuses for Long-Term Holders: Long-Term holders receive loyalty bonuses, staking multipliers, and exclusive NFT airdrops. Hold your \$DAULTON and let the rewards keep coming.

- Community Governance: Holders get voting rights to help shape the future of \$DAULTON, from DTF App features to charity fund allocations. With \$DAULTON, you're not just an investor - you're a decision-maker.

9. DAULTONSWAP – WTF Is This?

- Earn and Play: DAULTONSWAP is a fun DeFi hub where you can stake, swap, and earn rewards on your \$DAULTON and other Memecoins, with tools like “Dig” for liquidity and “Bury” for staking, all tracked on the PawFolio dashboard.
- Community Power: \$DAULTON holders can vote on platform updates, helping shape DAULTONSWAP's future and keeping it fresh and community-powered.
- Boosting Value: DAULTONSWAP's rewards and features fuel \$DAULTON demand and increase its value, making it the ultimate go-to for memecoin enthusiasts.

10. DAULTON L2 – Unleashing Speed, Security, and Scalability for the MemeCoin Universe!

- Lightning-Fast and Affordable: DAULTON L2 ensures quick, low-cost transactions tailored for memecoins.
- Expands DAULTON TOKEN utility with staking, NFTs, and community-driven governance.
- Secure and Scalable: Built for long-term success, supporting high demand and user engagement.

Why \$DAULTON?

A Token With Heart

The \$DAULTON Token isn't just a meme—it's a movement. 25% of our total supply is dedicated to animal welfare. When you hold \$DAULTON, you're supporting charities, no-kill shelters, adoption drives, and

medical care for animals in need. We're building a community committed to making a positive difference for animals globally, all while creating value for holders.

Tokenomics Designed for Growth

With a total supply capped at 80 billion, \$DAULTON's value is bolstered by scarcity, strategic burning, and staking rewards. Every buy, stake, and trade fuels growth, and every burn increases value by making the token scarcer. Our goal is to ensure that early holders and long-term supporters benefit the most as \$DAULTON's value appreciates over time.

Built on Trust, Security, and Transparency

\$DAULTON is dedicated to transparency. Our charity wallet is public, so you can track every dollar given to our partner organizations. We've secured pre-agreed listings on top-tier exchanges for liquidity and are committed to fair distribution by limiting wallet investments to ensure everyone can join this journey.

Tell Us More About...DAULTON FRENZY APP

Well, DTF is where chaos reigns supreme, and fortunes are made or lost in the blink of an eye. Here, we've taken the wild west of memecoin trading and turned it into a coliseum where traders battle it out, not with swords, but with their wits and a knack for riding the crypto rollercoaster.

DTF is a gamified platform that combines the excitement of real-time memecoin trading with the thrill of competitive battle arenas. By onboarding various memecoins like \$DAULTON, Dogecoin, Shiba Inu, and more, DTF offers traders a unique and entertaining experience where they can compete in head-to-head or team-based trading competitions. The platform integrates AI-driven insights and introduces a personalized AI assistant, DAULTON, to guide users in real-time.

Platform Overview

Imagine if the Colosseum had less gladiators and more... well, gladiators who trade memecoins. That's DTF. We're not just trading; we're battling, with our trusty AI sidekick, DAULTON, whispering sweet nothings of market trends into our ears.

Core Features

1. Gamified Trading: Because why trade normally when you can do it with the thrill of a video game?
2. Cross-Memecoin Integration: We're not picky. If it's got a meme, it's probably got a place here. We've got memecoins from every blockchain imaginable. It's like a memecoin United Nations, but instead of peace talks, we're talking profits or nuking our portfolio.
3. Battle Arenas: From one-on-one duels to team battles, it's like choosing your multiplayer mode in a game, but with real currency at stake.
4. DAULTON, Your AI Sidekick: Think of DAULTON as JARVIS from Iron Man, but instead of building suits, it's helping you navigate the wild waters of memecoin trading.

Advanced Features of DAULTON

Predictive Analytics: Because who doesn't love a good guess about the future?

AI-Powered Quests: DAULTON will challenge you, not just to trade, but to live the meme life fully.

Social Engagement: DAULTON isn't just about making you rich; it's about making you popular in the memecoin community. Winners announced and coronated on our social channels.

Rewards and Power-Ups

Meme Coin Rewards: Win battles, get memecoins. It's like trading cards, but with actual potential for financial ruin or glory.

NFT-Based Power-Ups: Because what's a battle without magical items? Here, they're digital, but just as magical.

Tournaments and Leaderboards

Compete Globally: Climb the leaderboards, show off your trading prowess, and maybe even get a sponsorship from a dog-themed coin.

Players enter tournaments with an entry-fee paid in various memecoins including \$DAULTON. Tournament payouts are usually decided on a winner-take-all basis. Top dawg wins the pot.

User Experience

Onboarding: DAULTON will guide you through the madness, ensuring even the most crypto-confused can join in the fun.

Social Integration: Make friends, make enemies, all while trading memecoins. It's the crypto version of reality TV.

Tokenomics Behind DTF

\$DAULTON Token: The currency that rules DTF. Rewards are paid out in \$DAULTON and sometimes in less popular memecoins like, PEPE.

\$DTF Token: The lifeblood of \$DTF, where governance means deciding which memecoin gets to party next. In other words, Super Token Baby!

DTF Roadmap

Development & Beta: Building the arena where the battles of wits (and luck) will take place.

Full Launch: The gates open, and the battle for memecoin supremacy begins.

Global Expansion: Because the world needs to see this spectacle.

Why Are Launching this Thing?

Because DTF isn't just trading; it's entertainment. It's where the digital meets the ridiculous, and where every trader is a hero in their own right, battling not just for profit, but for glory in the annals of memecoin history.

DAULTONSWAP

DAULTONSWAP is the go-to spot for anyone who's ever thought, "How can I make my memecoins work as hard as they make me laugh?" This platform gathers all your tokens into a fun, feature-packed DeFi hub where you can stake, swap, and watch your \$DAULTON pile up rewards. With options to "Dig" for liquidity or "Bury" your \$DAULTON in staking, you can track every token's journey with the PawFolio dashboard. And yes, it's as secure as a vault guarded by Pomeranians on patrol, complete with laser vision for maximum security.

And there's more to this doggy DeFi dream! DAULTONSWAP lets \$DAULTON holders help steer the platform's future—just grab some \$DAULTON and cast your vote on updates. With an easy-to-navigate dashboard, and more rewards than you can shake a paw at, DAULTONSWAP is serious about helping you grow your memecoins—while keeping things lighthearted. This reward system isn't just about piling up gains; it's designed to boost \$DAULTON demand, raise its value, and make DAULTONSWAP the ultimate spot for memecoin fans!

DAULTON L2 – POWERING THE ECOSYSTEM

Welcome to DAULTON L2, the Layer 2 blockchain where memecoin projects and their fans finally have a place to call home! For creators, DAULTON L2 is like a VIP pass to the fast lane of blockchain, designed to handle the wildest meme-driven growth spurts without breaking a sweat (or the bank). Launch your token, trade at lightspeed, and let your community thrive without getting tangled in slow transactions and high fees. It's secure, speedy, and practically begging for your next viral masterpiece.

And for you, the memecoin connoisseur, DAULTON L2 is here to make your life easier - and way more fun. Imagine trading your favorite tokens, grabbing rare NFTs, and diving into community games with no outrageous fees and zero waiting around. Think of it as the ultimate meme playground, complete with support for DAOs, NFTs, and gamified DeFi that'll keep you entertained and earning. DAULTON L2 isn't just a blockchain; it's where meme magic meets real blockchain power.

Key Advantages

Charity-Driven Tokenomics

\$DAULTON's tokenomics are meticulously designed to ensure sustainability, growth, and significant charitable contributions. The fixed total supply of tokens ensures scarcity, while mechanisms like token burning and staking drive value appreciation and offer rewards to the community.

Security and Transparency

Transparency is at the core of \$DAULTON's operations. The charity wallet is publicly accessible, allowing the community to see exactly how funds are being utilized. Additionally, \$DAULTON has secured pre-agreed listings with top-tier exchanges, ensuring excellent liquidity and features for all participants.

Community Engagement

\$DAULTON places a strong emphasis on community involvement. The project encourages its members to participate in charity drives, adoption events, and other activities that support animal welfare. Moreover, the referral program allows community members to earn rewards in \$DAULTON and \$SOL tokens, further fostering community growth and engagement.

Partnerships with Animal Welfare Organizations

We are establishing strategic alliances with leading animal welfare organizations to ensure funds are directed to high-impact projects. This will include collaborations on specific campaigns and matching donation programs.

Governance and Voting Rights

One important initiative will be to implement a governance model where \$DAULTON token holders can vote on key decisions, such as which animal welfare projects to fund or changes to tokenomics. This empowers the community and ensures alignment with shared values.

Exclusive NFTs and Collectibles

We are introducing exclusive NFTs and digital collectibles focused on animal welfare themes as rewards for holding or staking \$DAULTON tokens. These digital assets not only serve as valuable incentives for our

community, but also offer unique and meaningful ways to demonstrate support for animal welfare causes. Each collectible is designed to raise awareness and generate funds for animal welfare initiatives, thereby aligning our token's value with a commitment to social responsibility.

Incentive Programs for Regular Contributions

We are implementing a tiered rewards system to recognize and incentivize consistent contributors within our community. This system offers a range of benefits based on the level of engagement and support provided. Contributors can earn special status, which include recognition and titles that highlight their contributions. Additionally, we will provide bonus tokens as rewards for sustained involvement, adding tangible value to their commitment. Exclusive access to community events—such as private meetings, special webinars, or VIP gatherings—will also be granted, offering an enhanced experience and deeper involvement in the project's activities.

Rapid Growth and Robust Marketing

We will continuously refine our strategies and financial models to fully unlock the potential of \$DAULTON. This involves not only enhancing our marketing efforts to reach and engage our target audience more effectively but also optimizing our performance metrics to drive superior results. By integrating advanced techniques and leveraging data-driven insights, we aim to uncover new opportunities for growth and ensure that \$DAULTON realizes its maximum potential in the market.

No Perpetuals

To prevent market manipulation and minimize price volatility, we are refraining from using perpetual contracts in the early stages of our project. Perpetual contracts, while useful for certain trading strategies, can amplify speculative behavior and contribute to price instability, especially when a project is in its formative phase. By avoiding these contracts initially, we aim to maintain a more stable and predictable market environment, fostering confidence among investors and stakeholders. This cautious approach helps ensure that the project's growth and development are not unduly influenced by speculative trading or volatile market conditions, allowing for a more sustainable and balanced trajectory.

Presale Limits

To promote fair distribution and prevent large-scale investors from dominating the allocation, we have set a cap on individual wallet investments. Each wallet is restricted to a maximum investment of 750 Solana (SOL) and 100 Ethereum (ETH). This limit ensures that no single investor can acquire an excessively large portion of the available tokens, thereby fostering a more equitable distribution across a broader base of participants. By implementing these caps, we aim to create a more balanced and inclusive investment environment, where smaller and medium-sized investors have a fair opportunity to participate and benefit from the project. This approach helps to mitigate the risk of market manipulation and ensures that the project's growth is driven by diverse and widespread support.

Pre-Agreed Top Listings

We have secured pre-agreed listings with top-tier exchanges, offering excellent liquidity and features. By securing these listings in advance, we are positioning our project for optimal market access and ensuring

that our token holders benefit from a seamless and supportive trading environment.

Vested Partners & KOLs

Our key opinion leaders (KOLs) are bound by publicly visible token vesting schedules, which are designed to promote long-term commitment and maintain transparency. By making these schedules public, we provide clear and open visibility into the timing and conditions of token distribution. This approach helps to build trust with our community by demonstrating that KOLs are incentivized to remain engaged and aligned with the project's success over the long term. It also ensures that KOLs' interests are closely aligned with the project's goals, as their financial rewards are tied to sustained involvement and the overall growth of the project.

Tokenomics

Total Supply

The total supply of \$DAULTON tokens is capped at 80 billion, ensuring long-term scarcity and potential value appreciation over time.

Token Distribution

- 25% - Presale & Bonuses: A significant portion of tokens is allocated to presale participants and bonuses, rewarding early supporters.
- 25% - Charitable Causes: A quarter of the total supply is reserved for donations to animal welfare organizations, ensuring that \$DAULTON makes a substantial impact on the lives of dogs in need.
- 20% - DEX/CEX/MM Liquidity: To ensure the smooth operation and trading of \$DAULTON, 20% of the tokens are allocated to liquidity on decentralized exchanges (DEX) and centralized exchanges (CEX).
- 15% - Treasury & Marketing: These funds are used to maintain the project's operations, including marketing efforts to increase awareness and attract new participants.
- 10% - Staking Rewards: Stakers are rewarded with additional \$DAULTON tokens, incentivizing long-term holding and participation in the community.
- 5% - Early Contributors: This allocation rewards those who contributed to the project in its early stages, recognizing their support and commitment.

Burning Mechanism

To maintain the value of \$DAULTON and create scarcity, a portion of tokens is burned regularly. The burning mechanism works as follows:

- 25% Permanently Burned: This portion of tokens is destroyed, reducing the overall supply and increasing scarcity.
- 50% Donated to Charity: Half of the burned tokens are redirected to the charity wallet, further supporting animal welfare initiatives.
- 25% Ruffled Among Participants: The remaining burned tokens are raffled among community members, offering them a return ranging from 0.1x to 10x the tokens they burned, with higher odds of receiving smaller returns.

Staking Mechanism

- \$DAULTON tokens can be staked to earn rewards, providing an additional incentive for long-term holding. The staking mechanism is structured as follows:
- Staking Periods: Users can stake their tokens for various periods, with longer periods yielding higher rewards.
- Reward Distribution: 10% of the total supply is allocated annually for rewards, distributed among weekly and monthly staking pools.
- APR Calculation: The Annual Percentage Rate (APR) for staking is calculated based on the total staking rewards and the percentage of the total supply that is staked.

Supporting Charities

Ongoing Contributions

\$DAULTON is committed to making a real difference in the lives of animals. A portion of the charity wallet are regularly donated to shelters, rescue organizations, and adoption events. These contributions help fund essential services such as veterinary care, shelter maintenance, and adoption drives.

Sponsorships and Events

In addition to direct donations, \$DAULTON sponsors various events and initiatives that benefit dogs in need. These include adoption fairs, sponsorship of veterinary care for rescued animals, and educational campaigns to raise awareness about animal welfare.

Charity Matching Events

We will organize special events where donations or investments in \$DAULTON are matched by major donors or partners, amplifying the impact of contributions and attracting new supporters.

Global Animal Welfare Initiatives

\$DAULTON has a global outlook and strives to support animal welfare initiatives worldwide. The project aims to build no-kill adoption centers in underdeveloped countries, providing safe havens for dogs and cats while promoting humane treatment and responsible pet ownership.

Roadmap

Phase One: Launch

- Presale: Launch the \$DAULTON presale, offering early supporters the opportunity to secure tokens at the lowest possible prices.
- Liquidity: Lock liquidity for DEX/CEX/MM purposes, ensuring smooth and efficient trading.
- Charity Wallet: Disburse \$DAULTON tokens into the dedicated charity wallet, ready for donation to animal welfare organizations.
- DEX Listing: List \$DAULTON on decentralized exchanges, making the token available for wider trading.
- Marketing Campaign: Launch a massive marketing campaign using influencers and key opinion leaders (KOLs) to spread the word about \$DAULTON.
- CMC, Coingecko & Dex Screener Listings: Secure listings on CoinMarketCap, CoinGecko, and Dex Screener to increase visibility and attract more investors.

Phase Two: Growth

- CEX Listings: Get \$DAULTON listed on major centralized exchanges, increasing accessibility and liquidity.
- Community Expansion: Grow the community through partnerships, advanced marketing strategies, and increased social media presence.
- Scarcity Programs: Implement staking and burning programs to increase token scarcity and reward long-term holders.
- Airdrop Campaign: Conduct an airdrop campaign to reward loyal community members and attract new participants.
- NFT Collection: Launch an exclusive \$DAULTON NFT collection, offering unique digital assets to community members who participate in staking and burning programs.

Phase Three: Global Impact

- Expand CEX Listings: Secure Tier-1 CEX listings to enhance \$DAULTON's global reach and trading volume.
- Global Partnerships: Form partnerships with animal welfare organizations worldwide, expanding the impact of \$DAULTON's charitable efforts.
- Charitable Causes: Continue supporting animal rescue organizations and animal adoption agencies.

Join the \$Daulton Community

Become a part of the \$DAULTON community and help us make a real difference in the lives of wonderful animals. Follow us on social media, participate in our charity events, and spread the word about

\$DAULTON. Together, we can create a world where every dog and cat is loved and cared for.

Risk Warning

Trading cryptocurrencies is highly speculative and carries a significant level of risk, which may not be suitable for all investors.
