DAULTON COIN WHITEPAPER

The Project

What is $DAULTON?

$DAULTON is a revolutionary dog-inspired meme-coin that operates on the Solana and Ethereum blockchains. It is designed to bring joy and happiness to the world while making a significant positive impact on animal welfare. Unlike many other meme-coins that lack a purposeful mission, $DAULTON is committed to supporting charitable causes, especially those focused on the protection and well-being of dogs. The project draws inspiration from a sweet and lovable Pomeranian named Daulton, whose joyous spirit is the cornerstone of this initiative.

Vision and Mission

The vision of $DAULTON is to create a powerful and positive impact on animal welfare globally, while establishing the most trustworthy and ethical platform in the cryptocurrency space, emphasizing fairness, transparency, and a strong community-driven approach. The mission is simple yet profound: to create a net-positive impact on the real world by funding charitable initiatives that protect and save dogs, promote adoptions, and raise awareness about animal welfare, all while creating value for the $DAULTON community.

THE PROBLEM

Challenges in Animal Welfare

Globally, millions of dogs suffer from neglect, abuse, and abandonment. Shelters are often overcrowded and underfunded, leading to inadequate care for these animals. Moreover, there is a significant gap in public awareness about the importance of adoption and animal welfare. The need for sustainable funding and global support for these causes is more critical than ever.

The Saturation of Meme-Coins

The cryptocurrency market is filled with meme-coins that often lack any real-world utility or mission. These coins are typically driven by speculative trading, leading to high volatility and short-lived interest. There is a growing need for meme-coins that not only entertain but also contribute positively to society.

$DAULTON differentiates itself by combining the fun and excitement of meme culture with a meaningful mission to support animal welfare.

The Solution

$DAULTON's Purpose and Goals

Memecoins offer a unique opportunity to blend philanthropy with financial gain. By investing in and supporting memecoins linked to animal welfare organizations, community members can contribute to crucial animal protection efforts while also participating in a potentially lucrative investment. This dual-benefit model not only helps sustain and expand vital animal care initiatives but also allows supporters to profit as the coin's value increases, creating a win-win scenario where charitable giving and financial success go hand in hand.

By supporting the $DAULTON Community, you become a vital part of a dynamic model that empowers individuals to advance a noble cause and achieve personal prosperity, illustrating how modern financial tools can drive meaningful change and enrich lives in equal measure.

FROM SHELTER TO THE STARS

Charitable Contributions

A significant percentage of $DAULTON tokens are allocated to a charity wallet, which is used exclusively to fund initiatives that protect and save dogs. These contributions help build no-kill shelters, sponsor adoption events, and provide much-needed veterinary care to animals in need.

Key Features

Charity-Driven Tokenomics

$DAULTON's tokenomics are meticulously designed to ensure sustainability, growth, and significant charitable contributions. The fixed total supply of tokens ensures scarcity, while mechanisms like token burning and staking drive value appreciation and offer rewards to the community.

Security and Transparency

Transparency is at the core of $DAULTON's operations. The charity wallet is publicly accessible, allowing the community to see exactly how funds are being utilized. Additionally, $DAULTON has secured pre-agreed listings with top-tier exchanges, ensuring excellent liquidity and features for all participants.

Community Engagement

$DAULTON places a strong emphasis on community involvement. The project encourages its members to participate in charity drives, adoption events, and other activities that support animal welfare. Moreover, the referral program allows community members to earn rewards in SOL tokens, further fostering community growth and engagement.

Partnerships with Animal Welfare Organizations

We are establishing strategic alliances with leading animal welfare organizations to ensure funds are directed to high-impact projects. This will include collaborations on specific campaigns and matching donation programs.

Governance and Voting Rights

One important initiative will be to implement a governance model where $DAULTON token holders can vote on key decisions, such as which animal welfare projects to fund or changes to tokenomics. This empowers the community and ensures alignment with shared values.

Exclusive NFTs and Collectibles

We are introducing exclusive NFTs and digital collectibles focused on animal welfare themes as rewards for holding or staking $DAULTON tokens. These digital assets not only serve as valuable incentives for our community but also offer unique and meaningful ways to demonstrate support for animal welfare causes.

Each collectible is designed to raise awareness and generate funds for animal welfare initiatives, thereby aligning our token's value with a commitment to social responsibility.

Incentive Programs for Regular Contributions

We are implementing a tiered rewards system to recognize and incentivize consistent contributors within our community. This system offers a range of benefits based on the level of engagement and support provided. Contributors can earn special status, which include recognition and titles that highlight their contributions. Additionally, we will provide bonus tokens as rewards for sustained involvement, adding tangible value to their commitment. Exclusive access to community events—such as private meetings, special webinars, or VIP gatherings—will also be granted, offering an enhanced experience and deeper involvement in the project's activities.

Rapid Growth and Robust Marketing

We will continuously refine our strategies and financial models to fully unlock the potential of $DAULTON. This involves not only enhancing our marketing efforts to reach and engage our target audience more effectively but also optimizing our performance metrics to drive superior results. By integrating advanced techniques and leveraging data-driven insights, we aim to uncover new opportunities for growth and ensure that $DAULTON realizes its maximum potential in the market.

No Perpetuals

To prevent market manipulation and minimize price volatility, we are refraining from using perpetual contracts in the early stages of our project. Perpetual contracts, while useful for certain trading strategies, can amplify speculative behavior and contribute to price instability, especially when a project is in its formative phase. By avoiding these contracts initially, we aim to maintain a more stable and predictable market environment, fostering confidence among investors and stakeholders. This cautious approach helps ensure that the project's growth and development are not unduly influenced by speculative trading or volatile market conditions, allowing for a more sustainable and balanced trajectory.

Presale Limits

To promote fair distribution and prevent large-scale investors from dominating the allocation, we have set a cap on individual wallet investments. Each wallet is restricted to a maximum investment of 500 Solana (SOL) and 50 Ethereum (ETH). This limit ensures that no single investor can acquire an excessively large portion of the available tokens, thereby fostering a more equitable distribution across a broader base of participants. By implementing these caps, we aim to create a more balanced and inclusive investment environment, where smaller and medium-sized investors have a fair opportunity to participate and benefit from the project. This approach helps to mitigate the risk of market manipulation and ensures that the project's growth is driven by diverse and widespread support.

Pre-Agreed Top Listings

We have secured pre-agreed listings with top-tier exchanges, offering excellent liquidity and features. By securing these listings in advance, we are positioning our project for optimal market access and ensuring

that our token holders benefit from a seamless and supportive trading environment.

Vested Partners & KOLs

Our key opinion leaders (KOLs) are bound by publicly visible token vesting schedules, which are designed to promote long-term commitment and maintain transparency. By making these schedules public, we provide clear and open visibility into the timing and conditions of token distribution. This approach helps to build trust with our community by demonstrating that KOLs are incentivized to remain engaged and aligned with the project's success over the long term. It also ensures that KOLs' interests are closely aligned with the project's goals, as their financial rewards are tied to sustained involvement and the overall growth of the project.

Tokenomics

Total Supply

The total supply of $DAULTON tokens is capped at 80 billion, ensuring long-term scarcity and potential value appreciation over time.

Token Distribution

- 25% - Presale & Bonuses: A significant portion of tokens is allocated to presale participants and bonuses, rewarding early supporters.
- 25% - Charitable Causes: A quarter of the total supply is reserved for donations to animal welfare organizations, ensuring that $DAULTON makes a substantial impact on the lives of dogs in need.
- 20% - DEX/CEX/MM Liquidity: To ensure the smooth operation and trading of $DAULTON, 20% of the tokens are allocated to liquidity on decentralized exchanges (DEX) and centralized exchanges (CEX).
- 15% - Treasury & Marketing: These funds are used to maintain the project's operations, including marketing efforts to increase awareness and attract new participants.
- 10% - Staking Rewards: Stakers are rewarded with additional $DAULTON tokens, incentivizing long-term holding and participation in the community.
- 5% - Early Contributors: This allocation rewards those who contributed to the project in its early stages, recognizing their support and commitment.

Burning Mechanism

To maintain the value of $DAULTON and create scarcity, a portion of tokens is burned regularly. The burning mechanism works as follows:

- 25% Permanently Burned: This portion of tokens is destroyed, reducing the overall supply and increasing scarcity.
- 50% Donated to Charity: Half of the burned tokens are redirected to the charity wallet, further supporting animal welfare initiatives.
- 25% Raffled Among Participants: The remaining burned tokens are raffled among community members, offering them a return ranging from 0.1x to 10x the tokens they burned, with higher odds of receiving smaller returns.

Staking Mechanism

- $DAULTON tokens can be staked to earn rewards, providing an additional incentive for long-term holding. The staking mechanism is structured as follows:
- Staking Periods: Users can stake their tokens for various periods, with longer periods yielding higher rewards.
- Reward Distribution: 10% of the total supply is allocated annually for rewards, distributed among weekly and monthly staking pools.

- APR Calculation: The Annual Percentage Rate (APR) for staking is calculated based on the total staking rewards and the percentage of the total supply that is staked.

How To Buy $DAULTON

Purchasing with SOL

1. Create a Wallet: If you don't already have one, set up a Solana-compatible wallet. We recommend using Phantom for its user-friendly interface and robust security features.

2. Fund Your Wallet: Add Solana (SOL) to your wallet by purchasing it through MoonPay or Change Now. You can access these services directly via the links provided on the Daultoncoin.com website.

3. Buy $DAULTON: Go to the official $DAULTON website and copy the SOL address provided there. Transfer SOL tokens from your wallet to this address. You will receive $DAULTON tokens in return, based on the presale pricing tier you are participating in.

Purchasing with ETH, USDT, or Credit Card

1. Connect Your Wallet: Connect your MetaMask, Trust Wallet, or other compatible wallet to the $DAULTON website using the widget at the top of the page.

2. Fund Purchase: Ensure you have ETH or USDT in your wallet to exchange for $DAULTON. If you don't have any, deposit some into your wallet or use the credit card option.

3. Swap Tokens for $DAULTON: Use the BUY widget on the website, select the number of tokens you want to purchase, and approve the transaction in your wallet, ensuring you have enough ETH or USDT for gas fees.

4. Stake $DAULTON to Earn More $DAULTON: Once you have purchased $DAULTON tokens, you will have the option to stake them to earn additional rewards. This feature is coming soon, so stay tuned for updates on how to participate and maximize your rewards through staking.

Supporting Charities

Ongoing Contributions

$DAULTON is committed to making a real difference in the lives of animals. A portion of the presale funds and the charity wallet are regularly donated to shelters, rescue organizations, and adoption events. These contributions help fund essential services such as veterinary care, shelter maintenance, and adoption drives.

Sponsorships and Events

In addition to direct donations, $DAULTON sponsors various events and initiatives that benefit dogs in need. These include adoption fairs, sponsorship of veterinary care for rescued animals, and educational campaigns to raise awareness about animal welfare.

Charity Matching Events

We will organize special events where donations or investments in $DAULTON are matched by major donors or partners, amplifying the impact of contributions and attracting new supporters.

Global Animal Welfare Initiatives

$DAULTON has a global outlook and strives to support animal welfare initiatives worldwide. The project aims to build no-kill adoption centers in underdeveloped countries, providing safe havens for dogs and cats while promoting humane treatment and responsible pet ownership.

PRESALE STAGES

The initial price is set at $0.001 per $DAULTON. Secure the lowest rates as an early supporter and potentially enjoy up to 10x gains at launch.

STAGE 1: $0.001

STAGE 2: $0.003

STAGE 3: $0.005

STAGE 4: $0.0075

LIST PRICE: $0.01

Roadmap

Phase One: Launch

- Presale: Launch the $DAULTON presale, offering early supporters the opportunity to secure tokens at the lowest possible prices.
- Liquidity: Lock liquidity for DEX/CEX/MM purposes, ensuring smooth and efficient trading.
- Charity Wallet: Disburse $DAULTON tokens into the dedicated charity wallet, ready for donation to animal welfare organizations.
- DEX Listing: List $DAULTON on decentralized exchanges, making the token available for wider trading.
- Marketing Campaign: Launch a massive marketing campaign using influencers and key opinion leaders (KOLs) to spread the word about $DAULTON.
- CMC, Coingecko & Dex Screener Listings: Secure listings on CoinMarketCap, CoinGecko, and Dex Screener to increase visibility and attract more investors.

Phase Two: Growth

- CEX Listings: Get $DAULTON listed on major centralized exchanges, increasing accessibility and liquidity.
- Community Expansion: Grow the community through partnerships, advanced marketing strategies, and increased social media presence.
- Scarcity Programs: Implement staking and burning programs to increase token scarcity and reward long-term holders.
- Airdrop Campaign: Conduct an airdrop campaign to reward loyal community members and attract new participants.
- NFT Collection: Launch an exclusive $DAULTON NFT collection, offering unique digital assets to community members who participate in staking and burning programs.

Phase Three: Global Impact

- Expand CEX Listings: Secure Tier-1 CEX listings to enhance $DAULTON's global reach and trading volume.

- Global Partnerships: Form partnerships with animal welfare organizations worldwide, expanding the impact of $DAULTON's charitable efforts.
- Charitable Causes: Continue supporting animal rescue organizations and animal adoption agencies.

Join the $Daulton Community

Become a part of the $DAULTON community and help us make a real difference in the lives of wonderful animals. Follow us on social media, participate in our charity events, and spread the word about $DAULTON. Together, we can create a world where every dog and cat is loved and cared for.
